# ARCHIVES ITALIENNES DE BIOLOGIE

FONDÉES PAR A. MOSSO ET CONTINUÉES PAR V. ADUCCO

PUBLIÉES PAR G. MORUZZI

AVEC LE CONCOURS DU CONSIGLIO NAZIONALE DELLE RICERCHE

---

## COMITÉ DE RÉDACTION

ALF BRODAL (Oslo)

RITA LEVI MONTALCINI (St. Louis)

M.G.F. FUORTES (Bethesda)

GIUSEPPE MORUZZI (Pisa)

YVES LAPORTE (Toulouse)

OTTAVIO POMPEIANO (Pisa)

CARLO TERZUOLO (Minneapolis)

---

TOME 105

1967

PISA

UNIVERSITÀ DEGLI STUDI

Rédaction: *Via S. Zeno, 31 - 56100 Pisa (Italie).*

Administration: « *Archives italiennes de Biologie* » - Università - Lungarno  
A. Pacinotti, 43 - 56100 Pisa (Italie).

Imprimerie: « *E. Ariani* » e « *L'Arte della Stampa* » - 50135 Firenze (Italie).

## TABLES DES MATIÈRES

### FASCICULE 1, MARS 1967

1. The temporal relation of unit discharge in visual cortex and activity of the extraocular muscles during sleep. P. VALLEALA . . . . .	Pag. 1
2. Input-output relations of the vestibular system. D. MEGIRIAN and J. W. MANNING . . . . .	15
3. Transmission of sensory information through the lemniscal pathway during sleep. G. CARLI, K. DIETE-SPIFF and O. POMPEIANO . . . . .	31
4. Presynaptic and postsynaptic inhibition of transmission of somatic afferent volleys through the cuneate nucleus during sleep. G. CARLI, K. DIETE-SPIFF and O. POMPEIANO . . . . .	52
5. Vestibular influences during sleep. - V. Vestibular control on somatic afferent transmission in the cuneate nucleus during desynchronized sleep. G. CARLI, K. DIETE-SPIFF and O. POMPEIANO . . . . .	83
6. The excitability of optic nerve terminals in the lateral geniculate nucleus after stimulation of visual cortex. A. ANGEL, F. MAGNI and P. STRATA . . . . .	104
7. Changes in click-evoked responses in the auditory system and the cerebellum of free-moving cats during sleep and waking. G. BERLUCCHI, J. B. MUNSON and G. RIZZOLATTI . . . . .	118
ANALYSES . . . . .	136

### FASCICULE 2, JUIN 1967

1. A source of error in the study of Golgi-stained material. E. RAMÓN-MOLINER . . . . .	Pag. 139
2. La différenciation morphologique des neurones. R. RAMÓN-MOLINER . . . . .	149

3. Retinal responses with different background light and psychophysical correlation. R. E. POPPELE and L. MAFFEI.	Pag. 189
4. A neural component in dark adaptation. L. MAFFEI and R. E. POPPELE . . . . .	201
5. Response of the muscle spindles and of the extrafusal fibres in an extensor muscle to stimulation of the lateral vestibular nucleus in the cat. G. CARLI, K. DIETE-SPIFF and O. POMPEIANO . . . . .	209
6. Comparison of the effects of stimulation of the VIIIth cranial nerve, the vestibular nuclei or the reticular formation on the gastrocnemius muscle and its spindles. K. DIETE-SPIFF, G. CARLI and O. POMPEIANO . . . . .	243
7. Mechanisms of muscle spindle excitation. G. CARLI, K. DIETE-SPIFF and O. POMPEIANO . . . . .	273
8. Excitation of mechanoreceptor units in the skin of the rabbit ear. S. MILLER . . . . .	290
GIUSEPPE BORGATTI (1899-1966) . . . . .	315
ANALYSES . . . . .	320

## FASCICULE 3, SEPTEMBER 1967

1. Nervous control of flashing in the firefly <i>Luciola Italica</i> L. M. BUONAMICI and F. MAGNI . . . . .	Pag. 323
2. Central and peripheral mechanisms in the modulation of flashing in the firefly <i>Luciola Italica</i> L. F. MAGNI . . . . .	339
3. The fine structure of the eyes of <i>Euscorpius Carpathicus</i> L. (Arachnida Scorpiones). C. BEDINI . . . . .	361
4. Sweating under different ambient temperature in normal, striatal and thalamic cats. G. H. WANG and R. W. S. CHUN . . . . .	379
5. Sweating in chronic rostroccortical and caudocortical cats. M. MURRAY and G. H. WANG . . . . .	393
6. Effects of caudate-capsular stimulation on thalamic ventrolateral unitary activity in the cat. L. A. MARCO, T. S. BROWN, J. M. BUSSE and W. J. WEINER . . . . .	399
7. Electrophysiological study of visual cortical mechanisms activated during avoidance conditioning trials in macaques. G. F. RICCI, F. VALASSI and L. ZAMPARO . . . . .	413
ANALYSES . . . . .	436

## FASCICULE 4, NOVEMBER 1967

1. The projection of the "vestibulocerebellum" onto the vestibular nuclei in the cat. P. ANGAUT and A. BRODAL. Pag.	441
2. Tonic and phasic changes in threshold of arousal during desynchronized sleep. M. M. GASSEL and O. POMPEIANO.	480
3. Cerebellar responses evoked by somatic afferent volleys during sleep and waking. G. CARLI, K. DIETE-SPIFF and O. POMPEIANO . . . . .	499
4. Transmission of sensory information through ascending spinal hindlimb pathways during sleep and wakefulness. O. POMPEIANO, G. CARLI and H. KAWAMURA . . . . .	529
5. Depolarization of optic fiber endings in the lateral geniculate body. H. KAHN, F. MAGNI and R. V. PILLAI . . . . .	573
6. Microelectrode analysis of transfer of visual information by the corpus callosum. G. BERLUCCHI, M. S. GAZZANIGA and G. RIZZOLATTI . . . . .	583
GIUSEPPE AMANTEA (1885-1966) . . . . .	597
ANALYSES . . . . .	605
